

# Simplify Your Payment Collections and Reduce Your Accounts Receivable

By partnering with Zelis, you will finalize patient responsibility faster resulting in better overall patient outcomes.

Dealing with ever-changing industry rules, staffing shortages, and other challenges causes providers like you to use every tool and resource you have.

Despite efforts to...

- Speed up manual check processing
- Manage claim payments through dozens of payer portals
- Leverage misaligned employees to tackle growing backlog

**... data shows you're still paying too much to get paid.**

With a simple switch to automate your claim payment process, you will move from a cycle of never-ending backlog and costly errors to a sustainable one.

## You'll see immediate benefits:

### **Accelerate your payments**

Don't wait for claim payments which are the core of your revenue stream.

You'll get paid and close your books faster, having more cash on hand while reducing AR by up to 16 days on average.

### **Ditch costly manual processing**

Research shows at least half of all administrative spending is wasteful.

Your practice will no longer rely on manual workflows riddled with costly errors that slow your time to getting paid.

### **Reduce staffing stress and costs**

Labor shortages are plaguing the healthcare industry.

Rely on automation to reconcile payments, bill customers, and tackle the growing backlog to recognize revenue.

### **Focus where it matters most**

Shift your focus from administrative work to patient care and growth.

Allocate more resources to improving your patients' experience and growing your practice.

## What if you could make the switch today?

**You can**, with Zelis.

By enrolling with Zelis, you will streamline your connection to hundreds of payers and see the benefits of automating your revenue cycle.

**It's really that simple.**

### Zelis key features for providers:
